OBJECTIVE

I am a self-taught full-stack web developer with a strong foundation in web development. My dedication to excellence, problem-solving mindset, and commitment to continuous learning make me a valuable asset to any technology-focused team.

SKILLS

| | |
|---------------------------|---|
| Programming Skills | C, Javascript |
| Frontend | HTML, CSS, Bootstrap, Javascript, React JS |
| Backend | Node JS, Express JS |
| Database | Mongo DB, SQL |
| Soft Skills | Adaptability, Team work and Time management |

PROJECTS

1. BETTER FUTURE A responsive web page was designed using HTML and CSS. Used media queries to apply different styles for different screen sizes. [Github](#)

2. BootstrapEase A fully responsive form using HTML, CSS and Bootstrap. The form adapts seamlessly to various screen sizes, ensuring an optimal user experience on desktops, tablets, and mobile devices. [Github](#)

3. EMPLOYEE MANAGMENT SYSTEM A web application that creates, reads, updates, and deletes employee data, incorporating features such as search functionality and pagination for efficient data management using HTML, CSS, Javascript, Bootstrap, and a Node JS API. [Github](#)

4. CONTACT LIST Developed a contact list application using ReactJS and Redux for the frontend, and Node.js, Express.js, and MongoDB for the backend, implementing features for adding, editing, and deleting contacts to ensure a seamless user experience and efficient data management [Github](#)
